UPDATED - Message from Pete Santilli Concerning Ammon & Ryan Bundy --

This morning Pete told me that: Last night Ammon and Ryan Bundy were once again sent to the hole -- He went to the Chief and asked that he please do something about Ammon and Ryan being targeted by the guards -- You can literally see their eyes on them watching their every move, Pete said -- Some of the guards understand this and are sympathetic but it does little good --

Anyway, they were sleeping when it happened -- Pete is a bit away from them so was not a witness but talked to those who were --

Pete says: Ammon reportedly fell asleep or (was on his rack) with a unauthorized shirt on his bunk -- "It is not uncommon for us to roll up a shirt and use it as a pillow -- or maybe Ammon just forgot it was there, either way, the guard saw it and started harassing him -- at some point Ryan came over and grabbed the shirt from the CO's hands -- and that's why he is in trouble -- Saying Ryan Bundy was assaulting him he then requested a Emergency Response Team or Jail SWAT ..

Pete Says: This morning I spoke with Captain McCauley who was being a real tuff guy asshole -- I told him this was bullshit and that there were plenty of witnesses who saw what happened -- and wanted to fill out reports --

Captain McCauley said; "Then they need to fill out a report"

I then asked, " So you want me to tell everyone to fill out a report?"

He answered " Sure, and when you do, I'm going to charge you with trying to start an insurrection .. "

Pete also said that Ammon and Ryan have tried desperately to do their best to stay under the radar since they spent 40 days in the hole -- The bottom line is they are being targeted -- The Guards are using anything as an excuse to punish them -- or anyone who tries to take up for them ..

The last Pete heard, Ammon had been confined to a small space, shackled overnight, with no food or water --

CORE CIVIC REFUSES TO REPRIMAND THE GUARDS WHO WILL NOT LEAVE AMMON AND RYAN ALONE --
