 None of the information in this video is true. Stella does not represent the Government of The United States of America nor is she a part of the reign of the heavens. Reign of Heaven does not exist. The account owner is not affiliated with the reign of the heavens nor the Government of The United States of America. Jada has been asked politely to [Read more](#)

 +Jada Jackson We do not see how politely asking to remove mis information from you tube and asking you to contact the people involved with the reign of the heavens and the Government of The United States of America for the correct information warrants a threat accusation. Denying free speech was not the intent

truth, it was not a clause to assist people to spread lies about others.

Jada, you admitted in your post that you know nothing about the reign of the heavens and the Government of The United States of America, yet feel very comfortable about talking about it as if you are an expert while refusing to speak with the source that can and is willing to tell the truth. Since this is on you tube, it is a public forum and therefore is considered slander on the part of Jada Jackson because the information is on Jada Jackson's you tube channel.

Therefore, it is respectfully requested of the Jada Jackson label to remove this video and cease and desist speaking about subject matter that the founders of the information are not allowed to rebut or are being completely ignored.

Public Notice: Jada Jackson was completely informed on a hour and a half Skype conversation about Stella and the fact that Stella had nothing to do with the subject matter of this video and about the reign of the heavens and how it was discovered and claimed. Jada Jackson was also informed about the Government of The United States of America and how it was reformed and allowed this video to be made knowing that the information was false that was coming from Stella. Running from legal liability is of low character and converting a simple request into a threat is conversion, depending on the severity of the conversion could be considered a felony. At the very least, the Jada Jackson label would be considered un-professional journalism by not contacting the individuals that have the correct information and inviting them on the call.

The Government has a Public Relations office that can be contacted at anytime and interviews can be requested at anytime by any type of journalist. American Nationals and General Post Masters are available at anytime to ask questions of them or inter view them. There was no reason to create this type of false information and then claim to stand behind it.
