

The Mana World Holding Trust

First and foremost, we use the term "TRUST" (Mana World Holding Trust – Bank for International Settlement Registration FMCA777888777888999) simply as a descriptive mechanism. The effective and legal description is what is called the "12th Banking Jurisdiction" and is essentially a sovereign nation (country) with its own country code. The TRUST is a CENTRAL BANK, on a par with the US FEDERAL RESERVE and all other 67 global Central banks. The TRUST is what is considered the Backend to the present global banking systems (the Actual the TRUST is essentially the Capital behind those institutions. (account/asset holders) and is on a par with the World Bank, IMF and BIS as well. The TRUST was established in the early 1800s for the purpose of funding " public good projects". The TRUST was formally reestablished in 1949 with 600 "Trustees" who's task it was to provide funding for projects for the benefit the people of the world. Each Country in the world has its own accounts, fully funded and ready for its assigned purpose. The TRUST today has fewer "trustees" due to significant abuse, over the last 50 years, of the capital accounts by number and managing banks. The Contract binding the "trustees" to the TRUST since 1949, expired in 2008, was renewed until 2013 and is now completely terminated. In basic English, the Rothschild/Rockefeller banking system (SWIFT) has proven since 2008 to be unreliable and far too many issues have arisen impeding the TRUST from accomplishing its stated purpose. The preferred but not only mechanism for distributing funding is through the INTERBANK transfer system RTGS (Real Time Gross Settlement), i.e. BlueScreen, FedWire, or Treasury Direct Access. This affords the TRUST to keep the INTEGRITY of the funding and purpose intact.

The TRUST today operates Funding options with 3 possible variants

1. Fully Public Funding (not repaid)
2. Public Private Funding, (a loan is created, and the capital is repaid to a 3rd party bank, for use in a further/subsequent project)
3. Private funding for startup companies (low interest loan re payable over designated period of time)

FUNDAMENTAL PROJECT CONDITIONS

- NO FUNDING FOR WEAPONS or WEAPONRY
- NO FUNDING FOR ENVIRONMENTAL DESTRUCTION (land clearing, deforestation, etc.)

METHOD OF INTERACTION

The TRUST has several Liaisons, A gentlemen named Mr. Sanford Ellis, is one. He is the first point of contact. The process begins with a conference call with Mr. Ellis, and from that point forward, access to a BLUESCREEN (RTGS), at which point all letters of Authority, Authentication, Project Contract & terms, validation and legal authority are exchanged. The TRUST possesses all forms of clearances from the Department of Homeland Security, FBI and DOJ in the United States, but once again, access to the Bluescreen system is required. There are no upfront or after costs to the end user or special considerations or fees.

If this is of interest to you, please let me know and I will make arrangements for a call with Mr. Sanford Ellis.
